

SACRED HEART SCHOOL SCIENCE FAIR
MODEL/EXPERIMENT
1ST AND 2ND GRADE EVALUATION FORM

Student's Name _____ Grade _____

Project Topic _____

Comments:

Judge's Signature: _____

If your child is doing a model the guidelines are different. A model is something that you build or construct which demonstrate a scientific principle, such as how something works or the effects of objects on each other. You will need to do research to find out how to build your model correctly. Keep all notes of your research and notes of procedures used to display with your model.
